This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2015 in the subject Economics - Finance, grade: 1,7, University of Applied Sciences Essen, language: English, abstract: In order to answer the first question of this term paper the financial crisis is analyzed regarding Minsky's theoretical framework. The focus lies on the question if an endogenous instability of the economic system can be proven. Furthermore, the second question if consequences as a reaction have been drawn is answered but it has to be said that an evaluation of the effect of the consequences goes beyond the scope of this work. In 2007 the biggest financial crisis after the 'Great Depression' of 1939 took place. One theoretical framework explaining financial crises of that kind was envisioned by Hyman P. Minsky (1919-1996) in the latter half of the 20th century and was not considered in this context for a long time. The most prominent part of the theoretical framework, the financial instability hypothesis (FIH), emphasises that the modern capitalist system is prone to bouts of relative instability and financial collapse. When the storm in...
