The wide influence exerted by the papacy on the political, social, and economic life of the middle ages gives to the study of the papal financial system a peculiar importance. Drawing its revenues from the whole Roman Catholic world, the relations of the Holy See with the sovereigns and peoples of Europe were affected in no small degree by its fiscal policy. In such well-known episodes of papal history as the struggle between Boniface VIII. and Philip the Fair, typical of the long contest between the mediaeval ideal and the reality of the growing national monarchy, the part played by finance became prominent. But on many less dramatic occasions its influence has been no less potent. In its more purely economic aspects ppal finance is equally deserving of attention. The papacy not only organized one of the earliest and best of the mediaeval financial systems, but by means of its operations influenced profoundly the general economic development of Europe. Altho accused of hindering commercial and financial activities by its prohibition of interest, 1 the Roman Church, nevertheless, with an almost...
