

One Hundred Physics Visualizations Using MATLAB (Mixed media product)

Filesize: 1.55 MB

Reviews

These kinds of publication is everything and got me to looking ahead of time and much more. it absolutely was writtern extremely completely and valuable. Your way of life period is going to be enhance when you full looking over this ebook.

(Dr. Lessie Murphy IV)

ONE HUNDRED PHYSICS VISUALIZATIONS USING MATLAB (MIXED MEDIA PRODUCT)

To read **One Hundred Physics Visualizations Using MATLAB (Mixed media product)** PDF, you should refer to the link below and save the ebook or get access to additional information which are have conjunction with ONE HUNDRED PHYSICS VISUALIZATIONS USING MATLAB (MIXED MEDIA PRODUCT) ebook.

World Scientific Publishing Co Pte Ltd, Singapore, 2014. Mixed media product. Book Condition: New. 230 x 158 mm. Language: English . Brand New Book. This book provides visualizations of many topics in general physics. The aim is to have an interactive MATLAB script wherein the user can vary parameters in a specific problem and then immediately see the outcome by way of dynamic movies of the response of the system in question. MATLAB tools are used throughout and the software scripts accompany the text in Symbolic Mathematics, Classical Mechanics, Electromagnetism, Waves and Optics, Gases and Fluid Flow, Quantum Mechanics, Special and General Relativity, and Astrophysics and Cosmology. The emphasis is on building up an intuition by running many different parametric choices chosen actively by the user and watching the subsequent behavior of the system. Physics books using MATLAB do not have the range - or the intent - of this text. They are rather steeped in technical detail. Symbolic math is used extensively and is integral to the aim of using MATLAB tools to accomplish the technical aspects of problem solving.
