RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 48 pages. Original publisher: Washington, D. C. : Smithsonian Institution Scholarly Press, 2011. OCLC Number: (OCoLC)724071416 Subject: Aulacigaster -- Classification. Excerpt: . . . n u m b e r 6 3 3 3 Species descriptions are composite, including information were included. Characters were coded for the analysis as on the holotype and other conspecific specimens. Char-either binary (17 characters) or qualitative multistate (7 actors used to characterize the genus and species groups characters). are not repeated in the species descriptions. To generate Analyses were done by using PAuP 4. 0 (Swofford, such inclusive descriptions, we wrote a separate tonath 2002). The matrix was initially analyzed with a branch-DEITA file for the diagnosis of the genus Aulacigaster and and-bound search, with all characters unordered and species groups, and a tonath DEITA file for each of the six equally weighted. Following initial parsimony analysis, species groups. Species diagnostic descriptions were gener-successive weighting (Farris, 1969) was applied by using ated with the aid of Intkey (Dallwitz, 1980; Dallwitz et al. , Farris (1989) rescaled consistency index, an approach 1993...
